

UNIC STATEMENT OF WARRANTY

Thank you for purchasing a UNIC espresso machine! At Electrolux Professional ("EPR"), we want you to feel confident that your equipment is protected and supported. This document explains further details of what's covered under your warranty, what isn't, and how to get help if you need service.

What Equipment is Covered

Electrolux Professional includes a standard warranty with all models of UNIC branded espresso equipment

What Service is Included

We guarantee that your UNIC machine will be free from defects in materials and workmanship during the warranty period. Coverage begins on the date of installation by a qualified service agent. If proof of installation is not available, warranty start date defaults to the ship date of the equipment. Equipment must be installed within 12 months of shipment to remain eligible.

- Labor – 1 year
- Parts* – 1 year
- Electronic Control Modules* – additional 1 year (total of 2 years) parts warranty on key electronics such as CPU, display, dosing, and hot water control modules.

* Replacement parts & equipment carry the remainder of the original warranty period.

Service agent travel up to 50 miles is covered. Additional travel charges apply beyond that distance. If equipment is installed in a location that cannot be accessed by a service agent (such as a food truck), the customer is responsible for bringing the equipment to the service agent.

Please note: UNIC equipment is designed for commercial use only. We cannot provide warranty service at residential addresses.

How to Request Service

To request warranty service, call Electrolux Professional Customer Care at +1 (800) 695-4500 (press 1, then 4) or visit our [Service Request](#) page to get started. You may be referred to a Distributor for administering your warranty Service.

If you have a warranty issue, EPR or your local UNIC distributor will work with you and your service agent to troubleshoot the problem. Depending on the situation, we will either:

- Repair the machine with replacement parts, or
- Provide replacement equipment of equivalent value.
